

PREMIER TECH WATER AND ENVIRONMENT

2 Whitehouse Way, South West Industrial Estate, Peterlee, Co. Durham, SR8 2RA, UK

BS EN 12566-1:2016

Small wastewater treatment systems for up to 50 PT. Prefabricated septic tanks

Product's reference code	Millennium Standard (Mil), Reinforced and Super Reinforced, ranging from 3 to 15m3, used for the treatment of domestic wastewater to population for up to 50 PTE
Material	PE (Polyethylene)
Effectiveness of treatment, Lamellar Hydraulic efficiency (lamellar prefilter PF17)	≤ 1.73 grams of micro beads
Power consumption	0 kWh
Water tightness (water test)	PASS
Crashing resistance	PASS
Durability	PASS
Reaction to fire	PND
Release of dangerous substances	PND

The test for the above was carried out at CSTB – Mechanical Laboratory, Nantes, FR, 44323, on the 19th of July, 2014; report no.: 140623

Signed for and on behalf of the manufacturer by:

Evangelos Petropoulos
Technical Manager, Premier Tech Water and Environment
